

In Year 5 we have written our class rules!

We will respect and listen to each other.
We will support and encourage each other.
We will always try our best and persevere.
We will be punctual and ready to learn.
We will not talk over each other.
We will respect the classroom and keep it tidy.
We will carry out our responsibilities with pride.
We will respect each other's opinions.
We will treat others how we would like to be treated.
We will respect that everyone can be at different stages in their learning.
We will remain on task.

By Ashleen

English

In English we have all been reading Charles Causley poems such as: The Green Man in the Garden and The Jolly Hunter. We have been writing our own stanzas using the refrain, jolly. We were using inference, information retrieval and deduction in our lesson.

P.H.S.E

This week we designed our own imaginary countries: created flags, mottos and laws. A few names of our imaginary countries were Sports-mania, Haribo-Heaven, Hilariously Funtopia, Cream-Iceman and Flowermania.

This assignment involved teamwork, your imagination and having fun. We really enjoyed this task and we are very glad that we are now in Y5 with our wonderful classmates and teachers (Ms Kaur and Mrs Wall).

Amazing Art

In Art we have learnt about still-life. We went to the playground and we played traffic lights. We were told to collect still objects to make a still-life collage. We all had great creativity in our work.

Maths

In year 5's maths, we have been learning about place value. This is where the number is in the correct place, but we are still trying to get it right! We are also playing some fun maths activities to help us with our hard work this year. We are persevering with our place value topic and hopefully, we'll be experts!
