Subject: Come Dressed as a Scientist Day- Friday 10th June 2022

Dear Parents and Carers,

We are excited to announce that after last year's successful 'Come Dressed as Scientist Day' to complement a week of science based activities, we will be holding another on Friday the 10th June 2022.

Your child is invited to come to school dressed as a scientist. Throughout the week your child will have been focusing on a particular scientist and learning science skills to complement their weekly science lessons.

Prior to the day, your child will have learnt about numerous professions, which involve science knowledge and skills. These could include: zoologists, marine biologists, gardeners, nurses, chefs, forensic scientists, statisticians, waste management and collection workers, builders and plumbers to name a few. You do not need to buy costumes for the day. For example, your child could wear an apron if they wish to come as a chef or wellington boots if they wish to be a farmer, these are just some ideas. I'm sure you can be more creative. Please remember as with all non-school uniform days, we still require your child to wear closed-toe-shoes.

Unfortunately, for us to make science a subject that is as exciting and practical as possible for your child, we do need your help to raise funds for equipment. Science is a subject that requires numerous resources to cover the whole science curriculum thoroughly. For this reason we are asking for donations on the day. Cash donations will be accepted and will be collected at the classroom doors at the start and the end of the day.

Please turn over

'Inspiring teaching for ambitious learners'

In addition, I'm really pleased and excited to announce Rainham Allotment Association, has kindly offered us a plot at the Melville Road Site. We would like to make full use of this, as this will benefit many aspects of school life and the curriculum for our children (science curriculum, well-being of children and learning outdoors). If you have the time we would like volunteers on Tuesday 14th June from 10 am who have the time and skills needed to help with constructing raised planting beds at the allotment and help clear a very overgrown section of the plot. Please complete the slip below and return to the school office. If you can help.

The staff team would like to thank you in advanced for your support and fundraising for science equipment at Brady. We all can't wait to see our Brady Scientists!

Your sincerely

Ms. Kaur

Science Lead

Please complete in capital letters

I (your name): _____

am able to help with constructing planting beds and clearing the allotment.

Tel: _____

Your child's name: _____ Class: _____
